

Assessment COMP2007/2907 - Semester 2 in 2017

Quizzes

There will be 10 quizzes (one per week). The best 8 out of the 10 quizzes will be counted towards 20% of your final marks.

Every Monday at noon a quiz will be made available on eLearning. You will have 20 minutes to answer the quiz. After 20 minutes the system will automatically submit your answers. The quiz will be due on the following Monday at 10am.

Late submissions will not be considered.

Quizzes will be marked automatically and your final marks will be given to you immediately after finishing the quiz.

Assignments

There will be five assignments. Each assignment counts towards 6% of your final marks. The assignment will be available two weeks before the due date. The preliminary due dates are:

Assignment 1: 28 Aug

Assignment 2: 11 Sep

Assignment 3: 25 Sep

Assignment 2: 16 Oct

Assignment 2: 30 Oct

Late submissions will be penalized by 25% of the full marks per day.

For example, say you get 80% on your assignment (max 100 points):

If submitted on time = 80

Late but within 24 hours = $80 * 0.75 = 60$

Between 24 and 48 hours = $80 * 0.5 = 40$

Between 48 and 72 hours = $80 * 0.25 = 20$

More than 72 hours = $80 * 0 = 0$

We aim to have the marks for each assignment returned to you within two (working) weeks after the due date.

Exam

The exam counts towards 50% of your final marks. Note that to pass the course a minimum of 40% is required on the exam.
